

**The Appendix is an integral part of
Certificate of Accreditation No. 487/2022 of 18/10/2022**

Accredited entity according to ČSN EN ISO/IEC 17025:2018:

JD Dvořák, s.r.o.
Testing Laboratory
Toužimská 897/E3, 199 00 Praha 18 - Letňany

Tests:

Ordinal number ¹	Test procedure / method name	Test procedure / method identification ²	Tested object
1	Test of resistance to climatic changes	PV 1200	Products and components for motor vehicles
2	Test of resistance to variable climate	PV 2005, Variant A	Products and components for motor vehicles
3	Cold test	ČSN EN 60068-2-1, ed. 2, except chapter 6.8, 6.13	Industrial products and their components
4	Dry heat test	ČSN EN 60068-2-2, except chapter 6.7, 6.13	Industrial products and their components
5	Change of temperature test	ČSN EN 60068-2-14, ed. 2, except chapter 6, 9	Industrial products and their components
6	Damp heat test, cyclic	ČSN EN 60068-2-30 ed. 2, except chapter 6, 10	Industrial products and their components
7	Composite cyclic test, temperature and humidity	ČSN EN 60068-2-38 ed 2, except chapter 6.2, 6.5	Industrial products and their components
8	Damp heat test, steady state	ČSN EN 60068-2-78 ed. 2, except chapter 5	Industrial products and their components
9	Corrosion test in salt spray	ČSN EN ISO 9227, Method NSS,	Parts and assemblies; surface coatings and protections
10	Corrosion test in condensation-water atmosphere	ČSN EN ISO 6270-2, except chapter 9.5.4	Parts and assemblies; surface coatings and protections
11	Combined corrosion test	ČSN EN 60068-2-52, ed.2; PV 1210; ČSN 34 5791-2-11; IEC 60068-2-11	Parts and assemblies; surface coatings and protections
12	Vibration test – sinusoidal	ČSN EN 60068-2-6, ed.2	Industrial products and their components
13	Vibration test – broadband random	ČSN EN 60068-2-64, ed.2	Industrial products and their components
14	Shock test	ČSN EN 60068-2-27, ed.2	Industrial products and their components
15	Combined climatic and vibration/shock test	ČSN EN 60068-2-53	Industrial products and their components

¹ asterisk at the ordinal number identifies the tests, which the Laboratory is qualified to carry out outside the permanent laboratory premises

² if the document identifying the test procedure is dated, only these specific procedures are used. If the document identifying the test procedure is not dated, the latest edition of the specified procedure is used (including any changes)

Explanations:

PV Volkswagen Standard
NSS Neutral salt spray
